

Partners in innovation

How the world's most important businesses
are shaping the future of distributed SQL

Spencer Kimball, CEO and Co-Founder

Welcome!

**The customer perspective
is in our DNA**

The background features a dark, almost black, space filled with numerous out-of-focus light spots in shades of blue and purple, creating a bokeh effect. On the right side, there are several bright, glowing trails of particles that appear to be moving or radiating outwards, adding a sense of dynamic energy and depth to the composition.

We partner with the most innovative,
market-shaping companies in the world
